Hi everyone,

After the Matt Fritz briefing yesterday, we learned that the Tom/Gina briefing on the multi-year agenda is sooner than anticipated – Oct 13. We have not yet pre-briefed Matt on the vanadium decision, and Bob Kavlock expressed interest in us getting some sort of statement to the AO soon, so that both topics (V2O5 and the MYA) could be discussed at the Tom/Gina meeting. We need to get this back to the IOAA ideally by COB Thursday, but it could slip to Friday.

I've attached a new version of the MYA for people to react to.
